

# CORPORATE GOVERNANCE STATEMENT 2020

Wärtsilä Corporation complies with the guidelines and provisions of its Articles of Association, the Finnish Limited Liability Companies Act, and the rules and regulations of Nasdaq Helsinki Ltd. Wärtsilä also applies the Global Reporting Initiative's G4 Sustainability Reporting Guidelines and complies with the Finnish Corporate Governance Code 2020 (the "Code") issued by the Finnish Securities Market Association. The Code is publicly available at [cgfinland.fi/en](http://cgfinland.fi/en). Wärtsilä has not deviated from any of the Code's recommendations.

Wärtsilä's Corporate Governance Statement is published as a separate statement on Wärtsilä's website, as well as in this Annual Report. Wärtsilä's Audit Committee has reviewed the Corporate Governance Statement. The company's external auditor has monitored the issuing of the statement and has verified that the description of the main features of the internal control and risk management section, as related to the financial reporting process included in the statement, reconciles with the Financial Statements.

Wärtsilä applies a single-tier governance model. The General Meeting of shareholders, the Board of Directors, and the President & CEO are responsible for the management of the Wärtsilä Group. Their duties are, for the most part, defined by the Finnish Companies Act. The General Meeting of shareholders elects the Board of Directors and the auditor. The Shareholders' Nomination Board prepares proposals to the General Meeting relating to the composition and remuneration of the Board of Directors. The Board of Directors is responsible for the strategic management of the company and is assisted in its work by the Board Committees. The Board appoints the President & CEO, who is in charge of the operative, day-to-day management of the company, with support from the Board of Management.

- approving the financial statements
- deciding on the distribution of dividends
- discharging the company's Board of Directors and President & CEO from liability for the financial year

A General Meeting of Wärtsilä Corporation is held at least once a year, at a time no later than the end of June. If needed, the company may also hold Extraordinary General Meetings. An invitation to the General Meeting is published on the company's website or in a minimum of two daily newspapers, which are commonly distributed in Finland, as decided by the Board of Directors. The invitation shall be published no earlier than two months and no later than three weeks prior to the General Meeting. It shall, however, be published at least nine days prior to the shareholders' record date. Wärtsilä also publishes the invitation to its General Meetings as a stock exchange release. The documents and draft resolutions to be submitted to the General Meeting can be found on Wärtsilä's website.

Shareholders have the right to add items falling within the competence of the Annual General Meeting to the meeting's agenda. The request must be submitted to the Board of Directors in writing sufficiently in advance of the meeting, so that the item can be added to the Notice of the General Meeting. Wärtsilä publishes on its website the date by which a shareholder must notify the company's Board of Directors of an issue that he or she demands to be addressed at the General Meeting. This information is given no later than by the end of the financial period preceding the General Meeting and includes the postal or email address to which the demand shall be sent. The demand is always deemed to have arrived in time, if the Board is notified of the demand no later than four weeks before the delivery of the Notice of the General Meeting.

All shareholders registered by the record date in the company's list of shareholders maintained by Euroclear Finland Ltd have the right to attend the Annual General Meeting. Each share entitles the holder to one vote. The Chairman of the Board of Directors, the members of the Board of Directors, and the President & CEO are normally present at the General Meeting. The auditor-in-charge also attends the Annual General Meeting. Director candidates shall also be present at the General Meeting that decides upon their election.

## ANNUAL GENERAL MEETING 2020

Wärtsilä's Annual General Meeting was held on 5 March 2020. A total of 1,970 shareholders representing 335,269,142 votes participated in person or by proxy.

The Annual General Meeting approved the financial statements, reviewed the Remuneration Policy for governing bodies, and discharged the members of the Board of Directors and the company's President & CEO from liability for the financial year 2019. The audit firm PricewaterhouseCoopers Oy was elected as the auditor of the company for the year 2020. The Meeting approved the Board of Directors' proposal to pay a dividend of EUR 0.48 per share in two instalments. The first instalment of EUR 0.24 per share was paid on 16 March 2020 and the second instalment of EUR 0.24 per share on 17 September 2020. The Meeting decided to establish a Shareholders' Nomination Board to prepare matters pertaining to the appointment and remuneration of the Board of Directors. It also adopted the proposed Charter of the Shareholders' Nomination Board. The Charter is available on Wärtsilä's website at [www.wartsila.com/investors/governance/snb](http://www.wartsila.com/investors/governance/snb). The Board of Directors was authorised to resolve to repurchase a maximum of 57,000,000 of the company's own shares. In addition, the Board of Directors was authorised to resolve to issue a maximum of 57,000,000 shares in the company. The shares can be issued for consideration or without consideration. They can also be issued in deviation from the shareholders' pre-emptive rights by way of a directed issue if there is a weighty financial reason for the Company to do so. These authorisations were not used by the Board of Directors in 2020. All resolutions were taken without voting. The minutes of the meeting and other related documents can be found on Wärtsilä's website at [www.wartsila.com/investors/governance](http://www.wartsila.com/investors/governance).

## SHAREHOLDERS' NOMINATION BOARD

The Annual General Meeting, held on 5 March 2020, established a Shareholders' Nomination Board for an indefinite period. The Nomination Board prepares and presents to the General Meeting proposals relating to the composition and remuneration of the Board of Directors. In addition, the Nomination Board reviews and adjusts the diversity principles of the Board of Directors, as necessary, and does successor planning of the directors.

The Nomination Board consists of five members. Four representatives are nominated by the company's four largest shareholders, with the fifth member being the Chairman of Wärtsilä's Board of Directors. The members are elected annually. Their term of office ends when the composition of the Nomination Board for the following period is determined. The four largest shareholders are determined on the basis of the shareholders' register maintained by Euroclear Finland Ltd. as of 1 June preceding the Annual General Meeting of shareholders. In case a shareholder does not wish to use its appointment right, the right transfers to the next largest shareholder who would not otherwise have such right.

The Shareholders' Nomination Board's proposal for the composition of the Board of Directors is included in the Notice of the General Meeting. The same applies to a proposal for the composition of the Board of Directors made by shareholders with at least 10% of the votes carried by the company shares, provided that the candidates have given their consent to the election, and the company has received information on the proposal sufficiently in advance as to be included in the Notice of the General Meeting. The candidates proposed after the disclosure of the Notice of the General Meeting shall be disclosed separately. Wärtsilä publishes the biographical details of the candidates for the Board on its website in connection with the publication of the Notice of the General Meeting.

## Diversity principles

For the Board of Directors to discharge its duties in the most effective manner, the Board must be highly qualified and sufficiently diverse. When preparing its proposal for the Board's composition, the Shareholders' Nomination Board considers the educational and professional background of the individual candidates, as well as their international experience, so that the composition of the Board represents a wide variety of competencies and qualifications. The Shareholders' Nomination Board also considers the candidates' age, as having different seniority levels in the Board is considered beneficial in terms of ensuring a mutually complementary experience.

With regards to gender, Wärtsilä's objective is to have a balanced representation of both genders in the Board. In December 2020, Wärtsilä had three female board members out of eight members in total.

The Shareholders' Nomination Board assesses the potential candidates, not only in terms of their individual qualifications and characteristics, but also in terms of their ability to effectively work together and jointly support and challenge the company management in a proactive and constructive way.

### THE BOARD OF MANAGEMENT IN 2020

The Board of Management met 14 times during 2020. The main issues addressed by the Board of Management included market development and business strategy, growth areas, the cost structure and profitability of the company, as well as developments related to competitiveness and the quality of products and services. Considering the substantial impact of COVID-19 on Wärtsilä globally, the implications of the pandemic for the markets and the measures taken to ensure business continuity and to safeguard the health and safety of Wärtsilä's personnel were also high on the agenda. Equally emphasised was the reorganisation of Wärtsilä Marine Business into three independent businesses with the aim of accelerating strategy execution, simplifying the business structure, and strengthening business presence in the Board of Management. Digitalisation and security, particularly cybersecurity, were additional areas of focus, as were occupational health and safety and operational excellence. Furthermore, the Board of Management continuously addresses the development of the regulatory operating environment, order intake and production capacity, as well as supplier and other stakeholder relationships.

### Corporate management

The company's corporate management consists of, in addition to the Board of Management, the directors in charge of corporate functions. These functions include financial controlling, corporate legal affairs, group treasury, compliance, information management, brand management, corporate internal audit, corporate relations and sustainability, and investor relations.

### Business management teams

Each business head is supported by a business management team. The business management teams comprise the heads of business units and business lines, as well as business specific support function heads. They are responsible for executing the respective business strategies and for ensuring that the business' performance is in line with agreed targets.

### Managing Directors of subsidiaries

The Managing Directors of the Group's subsidiaries are responsible for ensuring that local resources are correctly dimensioned to meet the needs of the businesses, and that the development needs of the subsidiary's personnel are met. The Managing Directors are also responsible for ensuring that the subsidiary's operations fulfil the requirements stipulated in the Group processes, including the quality system, that these operations comply with the respective country's legal requirements and with good business practices, and that communication within the subsidiary is conducted in accordance with the targets of the Group.

## INTERNAL CONTROL

Wärtsilä has defined its objectives for internal control according to the international COSO framework. Wärtsilä defines internal control as a process implemented by Wärtsilä's Board of Directors, the management, the Boards of Directors of Group companies, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives.

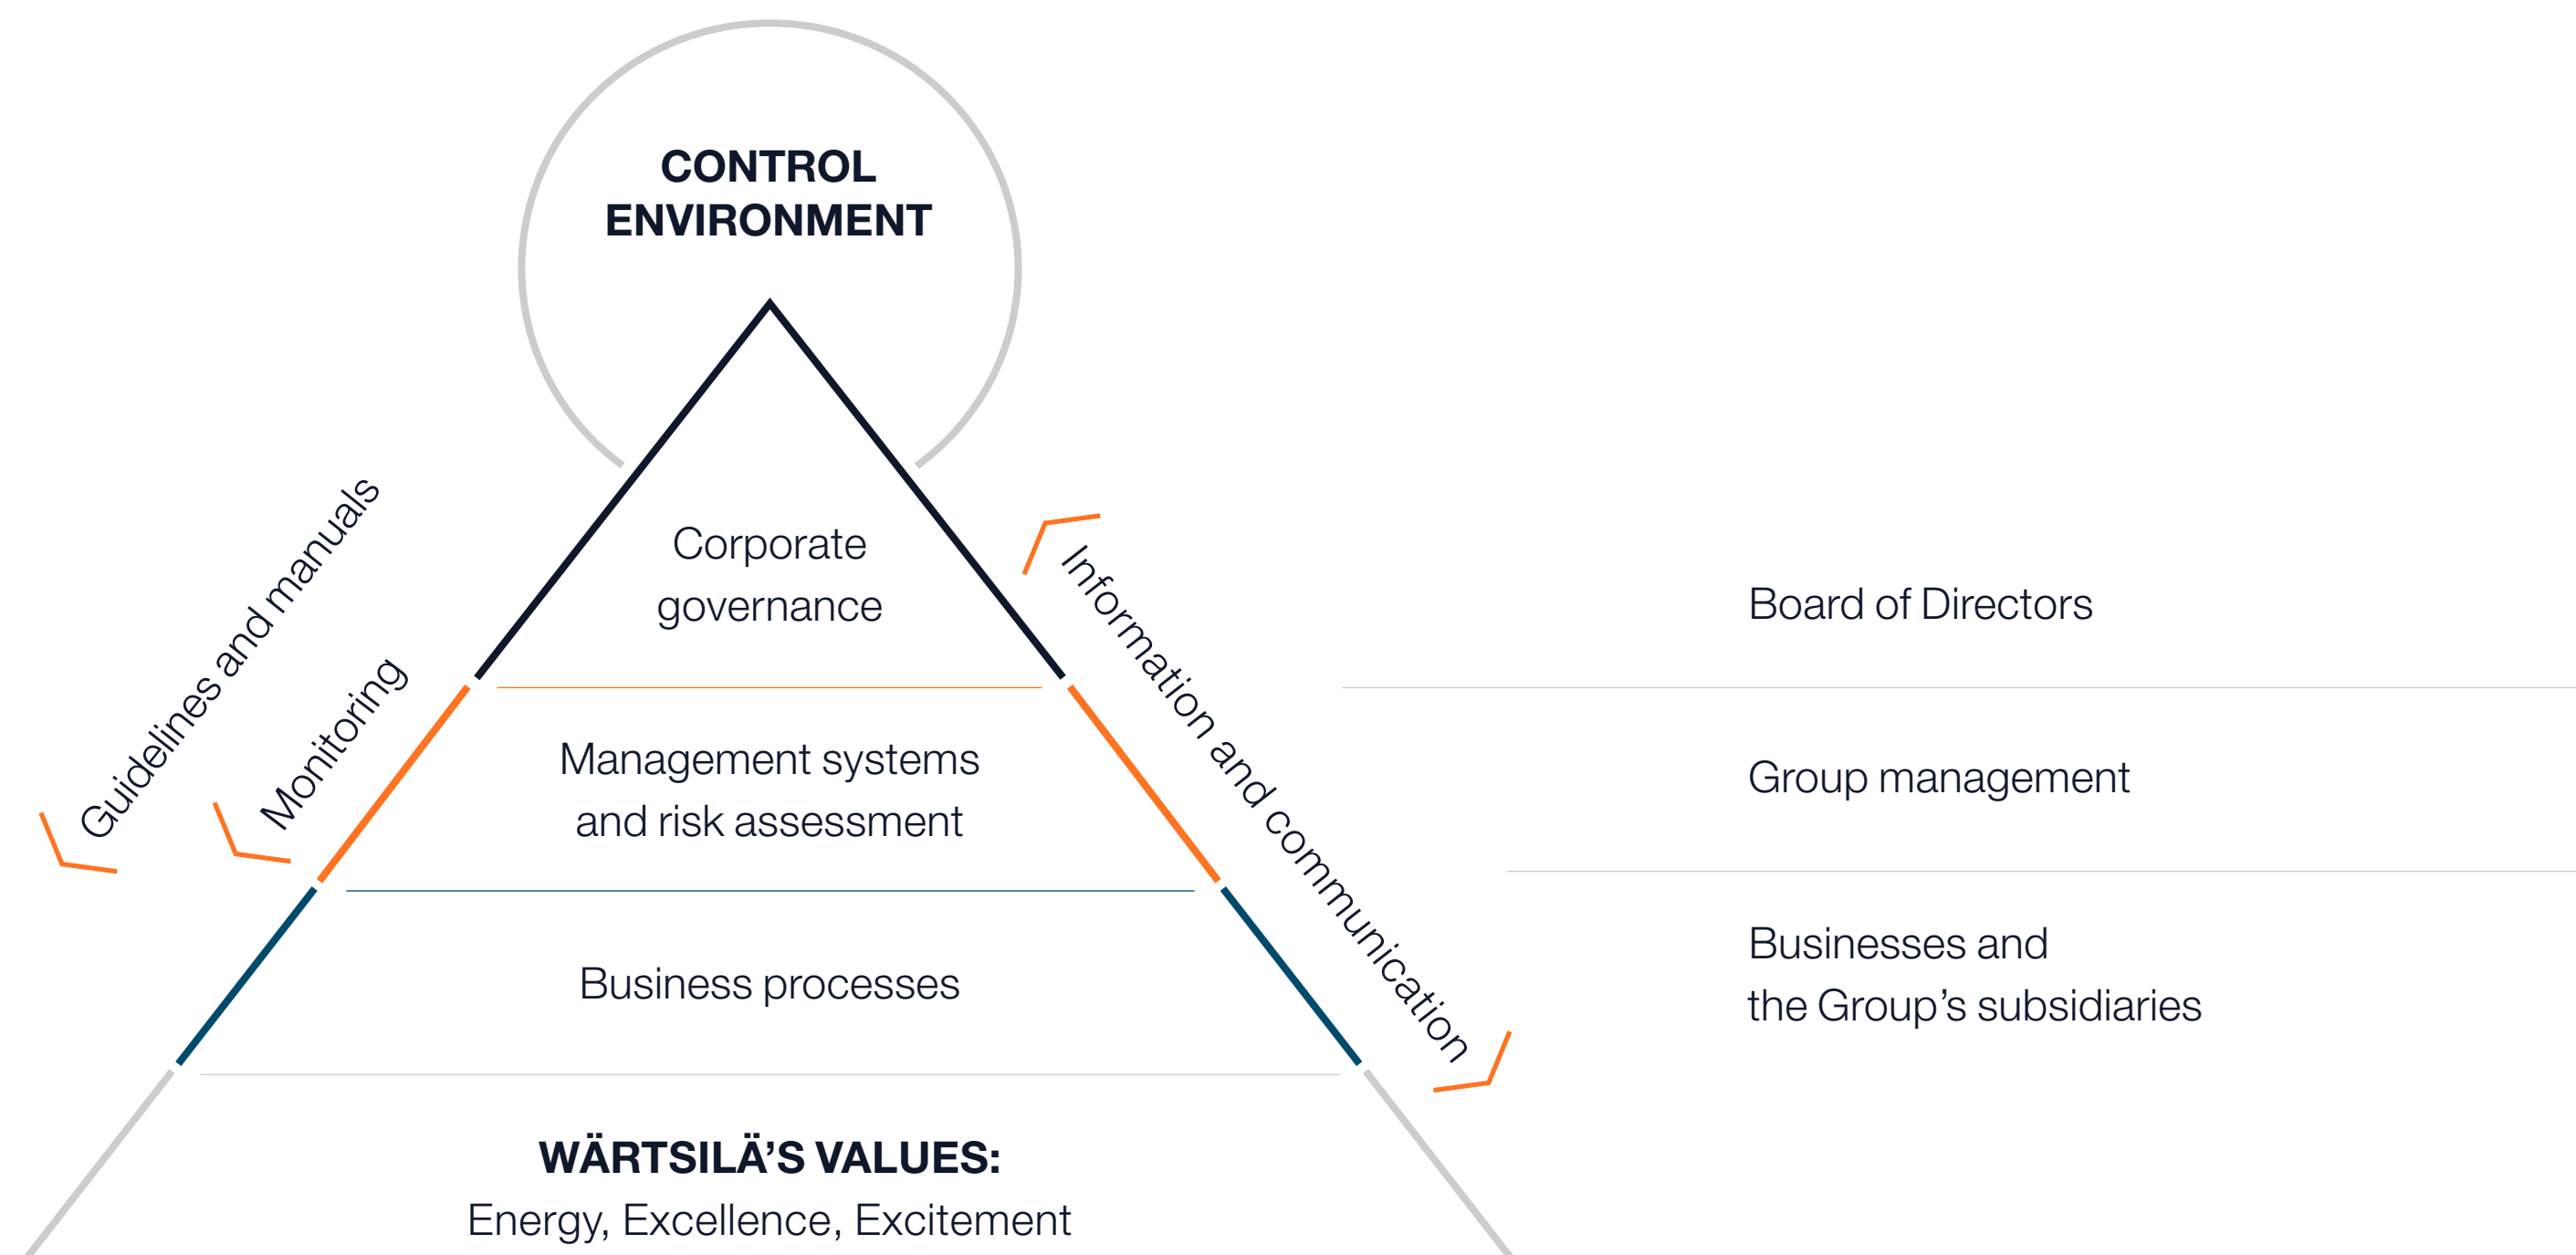

Internal control covers all the policies, processes, procedures and organisational structures within Wärtsilä that help the management, and ultimately the Board, to ensure that Wärtsilä is achieving its objectives, that the business conduct is ethical and in compliance with all applicable laws and regulations, that the company's assets, including its brand, are safeguarded, and that its financial reporting is correct. Internal control is not a separate process or set of activities but is embedded in Wärtsilä's operations.

The system of internal control operates at all levels of Wärtsilä. Wärtsilä maintains and develops its internal control system with the ultimate aim of improving its business performance and, at the same time, complying with laws and regulations in countries where it operates.

### Management systems

The Board of Management is responsible for developing and implementing Wärtsilä's management systems, continuously improving their performance and ensuring that they operate effectively. Wärtsilä's management systems cover all global processes and management procedures within Wärtsilä related to fulfilling customer requirements. The proper functioning of the management systems ensures, for their part, the attainment of Wärtsilä's internal control objectives. Wärtsilä's main management systems are described in detail on the company website: [www.wartsila.com/investors/governance/internal-control-framework](http://www.wartsila.com/investors/governance/internal-control-framework).

## MAIN COMPONENTS OF WÄRTSILÄ'S INTERNAL CONTROL

### **Risk assessment**

Internal control within Wärtsilä is designed to support the company in achieving its targets. The risks related to the achievement of targets need to be identified and evaluated in order for them to be managed. Thus, the identification and assessment of risks is a pre-requisite for internal control within Wärtsilä. Wärtsilä's internal control mechanisms and procedures provide the management assurance that risk management actions are carried out as planned. Wärtsilä has defined and implemented entity level and process level control activities, as well as information system controls. Control activities at different levels are needed to directly mitigate risks at the respective levels.

Wärtsilä's financial reporting is carried out in a harmonised way in all major Group companies, using a single instance ERP system and a common chart of accounts. The International Financial Reporting Standards (IFRS) are applied throughout the entire Group. Wärtsilä's finance and control process is essential for the functioning of internal control. Adequate controls in the financial management and accounting processes are needed to ensure the reliability of financial reporting.

The Board of Directors regularly assesses the adequacy and effectiveness of Wärtsilä's internal controls and risk management. It is also responsible for ensuring that the internal control of accounting and financial administration is arranged appropriately. The Audit Committee of Wärtsilä's Board of Directors is responsible for overseeing the financial reporting process.

A more comprehensive description of Wärtsilä's risk management principles as well as of Wärtsilä's most important strategic, operational, and financial risks can be found in the Risks and risk management section in the Annual Report.

### **Values and the control environment**

The foundation of Wärtsilä's internal control system lies on the company's values: Energy, Excellence, and Excitement. Wärtsilä's values are reflected in its day-to-day relations with its suppliers, customers, and

investors, as well as in internal guidelines, policies, manuals, processes, and practices. The control environment sets the tone for internal control within Wärtsilä and influences the control awareness of its people. It provides discipline and structure for all the other components of internal control. The elements of Wärtsilä's control environment are included in the corporate culture; in the integrity, ethical values and competence of Wärtsilä's personnel; as well as in the attention and direction provided to the personnel by the Board of Directors. Wärtsilä's values and control environment provide Wärtsilä's Board of Directors and management the basis for reasonable assurance regarding the achievement of the objectives of internal control. The President & CEO and the Board of Management define Wärtsilä's values and ethical principles, which are reflected in the Code of Conduct, and set an example for the corporate culture, which together create the basis for the control environment. They, together with the business management, are responsible for communicating Wärtsilä's values to the organisation.

### **Business processes**

The controls embedded in Wärtsilä's business processes play a key role in ensuring effective internal control within the company. Controls in the business processes help ensure the achievement of all the objectives of internal control within Wärtsilä, especially those related to the efficiency of operations and safeguarding the company's profitability and reputation. The business management is responsible for ensuring that, within its area of responsibility, the defined Group level processes and controls are implemented and complied with. Where no Group level processes and controls exist, the business management is responsible for ensuring that efficient business level processes with adequate controls have been defined and implemented.

### **Guidelines and manuals**

The components of Wärtsilä's internal control system, including for example corporate governance, management systems, the performance management process, as well as business and other processes, are described in various guidelines and manuals. The essential Group level policies and guidelines are compiled in Wärtsilä's Corporate Manual.

Wärtsilä's Group level Accounting Manual contains instructions and guidance on accounting and financial reporting to be applied in all Wärtsilä Group companies. The manual supports the achievement of objectives related to the reliability of Wärtsilä's financial reporting. Wärtsilä's Group level policies, and any changes to them, shall be approved by a member of the Board of Management. In addition to the Group level guidelines and manuals, the businesses have issued related guidelines and instructions for their own, specific purposes. The business level guidelines and manuals are aligned with, and do not contradict, the Group level guidelines and manuals.

### **Information and communication**

An effective internal control system needs sufficient, timely, and reliable information to enable the management to assess the achievement of the company's objectives. Both financial and non-financial information is needed, relating to both internal and external events and activities. Employees can provide feedback to the management and communicate suspected misconduct via a whistle-blower channel that secures anonymous reporting, or directly to the Compliance, Legal Affairs, or Internal Audit functions. All external communications are carried out in accordance with the Group Communications Policy.

### **Monitoring**

Monitoring is a process that assesses the quality of Wärtsilä's internal control system and its performance over time. Monitoring is performed both on an ongoing basis and through separate evaluations that include internal, external, and quality audits.

The Audit Committee of the Board of Directors assesses and assures the adequacy and effectiveness of Wärtsilä's internal controls and risk management. The Internal Audit function assists the Audit Committee in this work by performing regular audits of Group legal entities, businesses, and support functions in accordance with its annual plan. In addition, Wärtsilä's external auditor and other assurance providers, such as quality auditors, conduct their evaluations of Wärtsilä's internal controls.

Wärtsilä's management performs monitoring as part of its regular supervisory activities. The business management is responsible for ensuring that all relevant laws and regulations are complied with in their respective responsibility areas. The Legal and Compliance function monitors adherence to the compliance policies of the Group.

The Group Finance & Control function oversees the financial reporting processes and controls to ensure that they are being followed. It also monitors the correctness of all external and internal financial reporting. Wärtsilä's external auditor verifies the correctness of the external annual financial reports.

#### **Internal audit**

Wärtsilä's internal audit is handled by its Internal Audit unit, which reports to the Audit Committee and to the Chief Financial Officer. The purpose of the Internal Audit unit is to analyse the company's operations and processes, as well as the effectiveness and quality of its supervision mechanisms. The internal auditor also participates, if necessary, in audits undertaken in conjunction with acquisitions and carries out special tasks when needed. The Internal Audit function covers all the company's organisational levels and subsidiaries. An internal audit is undertaken in the subsidiaries and network companies at regular intervals, ranging from one to four years, based on a systematic evaluation.

The Internal Audit function prepares an annual plan, under which it independently audits different parts of the company. The annual plan is approved by the Audit Committee. The Internal Audit function is also empowered to carry out special audits. If required, the auditors also have the possibility to take direct contact with the Audit Committee or members of the Board of Directors.

#### **Related party transactions**

Wärtsilä's related parties comprise the Board of Directors, the President & CEO, the Board of Management, as well as the associated companies and joint ventures. The Group Finance & Control function evaluates and monitors transactions concluded between the company and its related parties to ensure that any conflicts of interest are considered appropriately in Wärtsilä's decision-making process.

#### **Insider management**

Wärtsilä manages inside information and insiders in accordance with all applicable laws and regulations regarding insiders and insider trading. The most important statutory provisions are contained in the Market Abuse Regulation (EU) 596/2014 ("MAR"). Wärtsilä also follows the Insider Guidelines of Nasdaq Helsinki Ltd. and Wärtsilä's Insider Policy.

The company draws up insider lists for projects containing inside information. Insiders are given written notification of their status as insiders and instructions on the obligations that apply to insiders.

The members of Wärtsilä's Board of Directors and Board of Management and certain other Wärtsilä personnel are prohibited from trading Wärtsilä's financial instruments during the 30 days prior to the publication of a financial statements bulletin, a half-year report, or an interim report.

Wärtsilä publishes notifications on transactions conducted by persons discharging managerial responsibilities and persons closely associated with them in accordance with the provisions of the MAR. The term "persons discharging managerial responsibilities" refers exclusively to the members of the Board of Directors and the Board of Management of Wärtsilä. These notifications are available on Wärtsilä's website.

#### **EXTERNAL AUDIT**

The company has one auditor, which shall be an audit firm. The auditor is elected by the Annual General Meeting to audit the accounts for the ongoing financial year. Its duties cease at the close of the subsequent Annual General Meeting. The auditor is responsible for auditing the consolidated and parent company financial statements and accounting records, as well as the administration of the parent company.

Following the closing of annual accounts, the external auditor submits a statutory auditor's report to the company's shareholders. In addition, the auditor regularly reports its findings to the Board of Directors' Audit Committee. The auditor, in addition to fulfilling general competency requirements, must comply with certain legal independence requirements guaranteeing the execution of an independent and reliable audit.

#### **AUDITOR IN 2020**

The Annual General Meeting appointed the audit firm PricewaterhouseCoopers Oy (PwC) as Wärtsilä Corporation's auditor for the year 2020. The auditor-in-charge was Ms Merja Lindh. Auditing fees paid to PwC amounted to EUR 4.2 million in 2020. Consultancy fees unrelated to auditing duties totalled EUR 0.4 million. The latter fees concerned tax advisory and other services.
