

WÄRTSILÄ PRE-SILENT NEWSLETTER Q1 2026

Wärtsilä Investor Relations is pleased to present the Q1 Pre-Silent Newsletter, providing an overview of key topics from the first quarter of 2026.

The silent period will commence on Tuesday, 7 April 2026, and the Interim Report January-March 2026 will be published on Tuesday, 28 April 2026.

Outlook

This is the outlook statement from the Stock Exchange Release published on February 4, 2026.

Marine

Wärtsilä expects the demand environment for the next 12 months (Q1/2026-Q4/2026) to be similar to that of the comparison period.

Energy

Wärtsilä expects the demand environment for the next 12 months (Q1/2026-

Q4/2026) to be better than in the comparison period.

Energy Storage

Wärtsilä expects the demand environment for the next 12 months (Q1/2026-Q4/2026) to be better than in the comparison period. However, the current geopolitical uncertainty particularly impacts this business and may affect growth.

In general, Wärtsilä underlines that the current high external uncertainties make forward-looking statements challenging. Due to high geopolitical uncertainty, the changing landscape of global trade, and the lack of clarity related to tariffs, there are risks of postponements in investment decisions and of global economic activity slowing down.

Progress in Portfolio Business divestments

The divestment of the Automation, Navigation and Control Systems (ANCS) business to Solix was completed on 1 July 2025. This was followed by the completion of the divestment of the Marine Electrical Systems (MES) business to Vinci Energies on 31 October 2025.

In December 2025, Wärtsilä announced that it had agreed to divest its Gas Solutions business to the German private equity investor Mutares SE & Co. KGaA. Subject to approvals, the transaction is expected to be completed in the second quarter of 2026.

In February 2026, Wärtsilä announced that it had agreed to divest its Water and Waste business to the Swedish investment company Solix Group AB. Subject to approvals, the transaction is expected to be completed in the third quarter of 2026.

Following the completion of the transactions, Wärtsilä will have divested all business units included in its Portfolio Business.
