Main IR activities in Q2 2024

During the second quarter of 2024 Wärtsilä Investor Relations hosted a Marine-themed investor call with our President of Wärtsilä Marine, **Roger Holm**, and CFO, **Arjen Berends** on May 7. The target of the call was to discuss Wärtsilä's Marine business opportunities and offer a chance to ask questions regarding the topic. The recording of the call is available [here](#) and a blog post summary of the call [here](#).

As a continuation of the Marine theme call, we organized a site visit to the Sustainable Technology Hub (STH) in Vaasa, Finland on 30 May. During the site visit, we introduced the guests to the Fuel Laboratory where future fuels are researched and tested, the Expertise Centre where Wärtsilä engines are monitored in operation globally, and the Additive Manufacturing site producing components with 3D-printing technology. In the afternoon, **Roger Holm**, the President of Marine, and **Mikael Wideskog**, the Director of Sustainable Fuels and Decarbonisation, provided deeper insights into how internal combustion engines will power maritime decarbonisation and future fuels. A blog post summary of the visit can be found [here](#).

Wäartsilä IR also hosted a strategy call with our CEO **Håkan Agnevall** on June 6. The recording of the call can be found [here](#) and a blog post summary of the call [here](#).

We participated in roadshows and conferences in London and Paris during the second quarter. Our latest roadshow presentation is available on our website at [Wäartsilä roadshow presentation](#).

The pre-silent call for Q2 2024 with our CFO **Arjen Berends** will be held on 19 June at 15:00-16:00 (EEST). The registration for the call is open.
