

## Information to Visitors

After its outbreak in China, the Novel Coronavirus (COVID-19) is rapidly spreading in new areas. Authorities and responsible companies are taking appropriate measures under their control to prevent its further spreading to the extent possible.

Health and safety of our employees, suppliers, customers and other visitors is a top priority for Wärtsilä. Consequently, Wärtsilä is taking in its global operations preventive safety measures outlined in this sheet.

### Visitors

- who have been in **epidemic areas of COVID-19** (as may be defined from time to time) during the last 14 days, or
- have been in close contact with person infected or suspected to be infected by Coronavirus during the last 14 days, or
- have cough, sneeze, fever, difficulty to breath or other symptoms like with Coronavirus

**are instructed to inform the host or entrance desk immediately. Please be advised that in such case access to Wärtsilä's sites may be restricted.**

### Wärtsilä measures

- Wärtsilä has restricted business trips in and beyond the epidemic countries.
- Wärtsilä has taken into use of self-quarantine measures of employees returning from epidemic areas.
- Wärtsilä is promoting the best practices of hygiene with advice on personal health care.

### What to do to prevent virus to spread?

- Stay home when you are sick.
- **Wash your hands often** with soap and water for at least 20 seconds.
- Use an alcohol-based hand sanitizer if soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with anyone who has fever and cough.
- Cover your cough or sneeze with a disposable tissue or shirt sleeve. Throw the tissue in the trash immediately, and wash your hands.
- If you have fever, cough and difficulty breathing seek medical care early and share previous travel history with your health care provider.
